

«All in One» Infertility Diagnostic Package

Description:

About 10 % of adult couples suffer from infertility and many of them have little or no information about their problems and the possibilities of treatment. Also the infertility treatment in many countries is quite expensive and takes too long.

In this Diagnostic Package, we offer you complex infertility diagnosis for both partners in one week, using the most modern and sophisticated methods (e.g. sperm, hormonal, genetic, uterus and tubal patency – made by unique, exact and very reliable method – UTHL).

On the first meeting, you and your partner will consult your problems with a specialist, who will refer to you on various examinations you will later pass. The doctor will also, if need be, answer your questions. After this first consultation, both of you will undergo a series of diagnosis that should help the doctor estimate the cause and nature of your problems. After you have passed all the necessary procedures and the doctor is sure about the diagnosis, you will be given information about the condition of you and your partner and presented the choices you have e.g. assisted reproduction or some other kind of treatment.

Furthermore, spa procedures and advanced cosmetic treatment are also part of the whole process and will hopefully make your stay as comfortable and pleasant as possible.

TREATMENT INCLUDES:

2x consultation with infertility expert

Male examination:

- sperm count;
- antibodies against sperm;
- hormonal examination;
- blood group examination + HIV, Hepatitis B, C, Chlamydie;
