

Medical Spa Programmes

Active Heart

Healthy heart – active heart

This is a medical programme which will supervise your heart. The team of top specialists will take care of your health and your treatment will be settled through deep examinations according to the actual state of your heart. You will recuperate by pleasant medical treatments in a quiet spa surrounding. Healthy and well-balanced boarding together with the professional approach of the spa staff are part of the treatment as well.

THE TREATMENT INCLUDES:

- Alimentation complements (Coenzyme Q10 and Carnitine M29)
- ECG stress monitoring
- Holter monitoring of blood pressure
- Stress training and measuring of energy consumption from off-road walking
- Oxygenotherapy twice a week
- Daily CO2 bath + CO2 gas bath + 2 medical treatments (according to a doctor's recommendation)

THE PROGRAMME INCLUDES:

- 3 medical examinations (at the beginning, during and at the end of your stay)
- full board
- laboratory diagnostic tests
- spa tax
