

## Plastic surgery *Lip enlargement*

### Description:

The lips are without question a dominant part of the face. Thin lips or wrinkles above them are a frequent complaint of our female patients and we must admit that it definitely harms the overall appearance of the face and does not deliver exactly youngish and full expression.

### Technologies:

For enlarging or filling the lips the injection method is used. A substance is inserted into the lip tissue serving as size filler. It brings fuller look as well as flattens the tiny wrinkles. Lasting of such treatment depends on the type of applied substance. It could be about 2 or 3 or more years. But non-absorbing substances are also used, and in this case the permanent effect is guaranteed.

**LASTING EFFECT:**  
2 -3 years / permanent

**ANESTHESIA:**  
Not required

**STAY DURATION**  
7 days
